Mr. Robert N. Werner, District Ranger
Tule River Ranger District
Route 2, Box 125
Springville, Calif. 93265

Dear Mr. Werner:

Several weeks ago I sent to your office Special-Use Application forms for sign permits at Mineral King during the summer of 1969. Since I have had no response from your office, I would like some clarification of this matter. I would appreciate your attention in expediting processing of my request.

Sincerely,

Mrs. Richard Koch

Mr. M. R. James, Forest Supervisor
Sequoia National Forest
P.O. Box 391
Porterville, Calif. 93257

Dear Mr. James:

In March Mr. P. F. Corson sent me Special-Use Application forms for sign permits at Mineral King during the summer of 1969, as I had requested such permits from your office.

Mr. Corson stated that my request was "unprecedented" in his experience, although you had stated in your letter of Feb. 6 that the removal of unpermitted signing is a normal activity for your field people whenever it is found in the national forest, /// I had assumed from your letter that permits are issued for signs in the forest.

According to Mr. Corson's instructions, I completed the forms and sent them to Mr. Werner's office over a month ago, however I have had no response from him. Your attention to this matter will be appreciated as summer is rapidly approaching. Perhaps you can expedite the processing of the application.

c.c Mr. P. F. Corson
Mr. Robert N. Werner
Mr. Michael McCloskey
The Honorable Alan Cranston
The Honorable Jerome Waldie

Place a r

Place a register with identifying sign mounted on temporary table or stand plus two temporary signs on approaches.

Construction to begin within 2 months and will be completed within 2½ months and will be used at least 100 days and will cost approx. $25. Signs clearly visible from road, at least 50 feet from register. Signs would be approx. 24 - 18 inches in size and would be neat and in harmony with the surrounding primitive area.
